The B1 level targets students at a foundational level, building a strong base for more advanced reading comprehension. This workbook doesn't simply present vocabulary lists; it actively teaches *decoding strategies*, empowering students to tackle unfamiliar words independently. This includes:

- **Phonetic Decoding:** Breaking down words into their individual sounds (phonemes) to understand pronunciation and meaning. This is a core skill addressed throughout the B1 level.
- **Structural Analysis:** Identifying prefixes, suffixes, and root words to determine meaning. The workbook uses numerous

examples to demonstrate this crucial strategy.

- **Contextual Analysis:** Using the surrounding text to infer the meaning of unfamiliar words. This skill is developed progressively throughout the workbook.

Navigating the Workbook: Structure and Activities

The SRA Decoding Strategies Workbook (B1) typically follows a consistent structure: Each lesson introduces a new concept or skill, providing clear explanations and examples. This is followed by a series of practice exercises designed to reinforce learning. These exercises vary in format, including:

- **Fill-in-the-blank exercises:** Reinforce understanding of specific vocabulary and decoding strategies.
- **Matching activities:** Test comprehension of word meanings and relationships.
- **Reading passages:** Apply newly learned skills in authentic reading contexts.
- **Sentence construction exercises:** Promote accurate word usage within meaningful sentences.
- **Writing activities:** Encourage creative application of vocabulary and decoding skills.

Accessing and Utilizing the Answer Key

While the workbook itself doesn't typically include an answer key, finding resources online may provide some assistance. However, it's crucial to use answer keys judiciously. They should be used for self-checking and understanding, not as a means to simply copy answers. The learning process lies in the **attempt** and the subsequent analysis of errors.
